

## **Update on claims processing for ordering/referring providers**

The Centers for Medicare & Medicaid Services (CMS) will delay until January 3, 2011, the implementation of phase 2 of change request (CR) 6417 (Expansion of the Current Scope of Editing for Ordering/Referring Providers for Claims Processed by Medicare Carriers and Part B Medicare Administrative Contractors [MACs]) and CR 6421 (Expansion of the Current Scope of Editing for Ordering/Referring Providers for Durable Medical Equipment, Prosthetics, Orthotics, and Supplies [DMEPOS] Supplier Claims Processed by Durable Medical Equipment Medicare Administrative Contractors [DME MACs]).

This delay will give physicians and nonphysician practitioners who order items or services for Medicare beneficiaries or who refer Medicare beneficiaries to other Medicare providers or suppliers sufficient time to enroll in Medicare or take the action necessary to establish a current enrollment record in Medicare prior to phase 2 implementation.

Although enrolled in Medicare, many physicians and nonphysician practitioners who are eligible to order items or services or refer Medicare beneficiaries to other Medicare providers or suppliers for services do not have current enrollment records in Medicare. A current enrollment record is one that is in the Medicare Provider Enrollment, Chain and Ownership System (PECOS) and contains the national provider identifier (NPI). Under phase 2 of the above referenced CRs, a physician or nonphysician practitioner who orders or refers and who does not have a current enrollment record that contains the NPI will cause the claim submitted by the Part B provider/supplier who furnished the ordered or referred item or service to be rejected.

CMS continues to urge physicians and nonphysician practitioners who are enrolled in Medicare but who have not updated their Medicare enrollment record since November 2003 to update their enrollment record now. If these physicians and nonphysician practitioners have no changes to their enrollment data, they need to submit an initial enrollment application which will establish a current enrollment record in PECOS.
